

Size Chart

The Size charts and measurements are to help you find the right size.
 The sizes in the measurement charts are in accordance to your body measurements in centimeters.
 Use a measuring tape on your body to determine the correct size.
 Choose tops according to chest measurements and pants according to waistline and seat measurements.
 Range of motion is already taken into consideration.

All measurements are taken directly on the body:

- ① Chest
Measure the widest chest area and around the shoulder blades.
If you wear a bra, leave it on while measuring.
- ② Waist
Measure the smallest area.
- ③ Seat
Measure around the widest part of the seat approximately 20cm below the waist on adults.
- ④ Inseam
Measure from the crotch to the floor.
- ⑤ Body length
Measure entire body when standing straight against a wall.
